## President's Message

Mr Mano Thangaraj

Dear Members,

With immense pleasure I take the privilege to wish all of you on behalf of our club a very happy independence day. This is a happy occasion as our country has successfully celebrating its 64<sup>th</sup> year of independence fulfilling the vision of the great leaders and martyrs of freedom movement. By celebrating this occasion let us remember those great souls who dedicated their lives so that we could breathe the air of freedom. Also it is the duty of every one of us to follow their ideals and contribute towards fulfilling their vision as well.

At this outset I would like to extend my heart felt gratitude to all members for their never ending support to me and my team. In the past year we have carried out various development activities and given a face lift to our club. As per our promise we have met with the requirements of various sections like renovation of swimming pool, tennis court, shuttle court, providing additional equipments to health club, construction of front entrance gate and lights. Getting affiliation with other reputed clubs was a long term dream which was achieved this year by getting affiliated to two clubs as of now, such as Haddows Club and Tower Club, Chennai and another ten in process. This is of course a milestone achievement of this committee, all our members can avail the facilities in the affiliated clubs.

At the commencement of the year we made an appeal to all the members to participate in the various activities and programs of the club and assured to maintain a conducive atmosphere to club members to participate with their families.

There was a very good response to this and because of this we were able to successfully conduct Children's day function, Food Fest, Swim and Dine and Chithirai Thiruvila with good participation by members. I sincerely appreciate the family members especially children for their participation and contribution in various cultural activities and competitions.

With the view to strengthen the communication between the club and the members we are launching our website on Independence Day. We have also created a member data base and SMS service to contact members easily and effectively. The long pending request of our club members and staffs to provide them with Identity cards is being fulfilled by us.

Presently the application for obtaining the license to have a Permit Room is under process and we will be getting the same very soon. Expansion of the health club to accommodate more members, expansion and upgrading the canteen and construction of two well furnished suites are our next goal.

I strongly believe that all our members will whole heartedly appreciate the office bearers and managing committee members for delivering quality services, transparent administration and friendly approach with development vision. I request all your support in the coming days to carry out the vision of establishing our club as one of the best in the country.

## High-Minded...

Our Club not only provided coaching in campus for our members and kids, we also took initiative in finding an unidentified talent, Mr. Jeo Antony Adimai, Who is a physically challenged person hailing from a poor family. With the Co-operation of shuttle section members and with the support of

management committee, we provided him free coaching by which he was able to win a third place in (single) National Level Badminton Tournament. He also got Second Place in doubles, physically challenged category, which was a remarkable achievement for our club.

## Swim & Dine

Our Swimming Pool and its surroundings were given a “face lift” by cleaning and painting as decided by the management committee.

Sectional meeting was called, in which our senior member and the then founder member of Swimming Pool Dr. Sunil Jeyaharan requested on behalf of members to organize “SWIM & DINE” programme. Infact the management committee thought of inviting all club members but due to space constraints and to encourage mainly swimming pool members this was organized only for swimming pool members.

To make action into reality a subcommittee was formed with Er. C.N. Raja, Mr. Pradeep Samuvel Dennison and Dr. Sunil Jeyaharan as sub committee members, with the assistance of our Secretary- Er. A. Kuttalingam they could able to contact all members through phone and they requested the members to make the programme a successful one.

Our new member Mr. K. N. Perumal Pillai happily accepted to sponsor the dinner.

As scheduled, the programme kicked - off on 3<sup>rd</sup> January, 2010 from 4P.M onwards with light & sound in order to create a festive mood for our members. Our swimming coach Mr. Kevin organized a swimming competition for kids & members, where almost all attendees participated with fun & enthusiasm. The competition for men had a nail biting finish as there was a tough Competition for 1<sup>st</sup> place between Mr. Mano Thangaraj, Dr. Gnanamoni, Mr. Arul Jothi and Mr. K.U.Nathan. Finally the climax ended as Mr. Mano Thangaraj emerged as winner and Dr. Gnanamoni as runner.

Musical Chair competition was enjoyed by all our kids, which was followed by our presidents address with welcome speech and he also highlighted the developments of our club during his team's tenure. All our committee members Dr. Chidhambaram pillai, Er. Suresh, Er. Paul Ahiah, Adv. Kanagasababathy and Treasurer J.E. Joseph actively participated to make the event successful. The gathering left to dinner after vote of thanks by our Secretary. Er. A. Kuttalingam.

Dinner was served around the crystal clear swimming pool which was well appreciated and enjoyed by all our members.

## Food Fest 2010

Food fest 2010, held on 15<sup>th</sup> January was a new initiative of our Management committee. This was a “Brain Child” of our family section secretary Mrs. Parveen Mathew. The aim of this function is not only to satisfy our taste buds, it is also to encourage good family interaction & to develop a healthy relationship and friendship among all family members.

Some of the mouth watering things served were home made Biriyani, Cakes, Cutlets, Vadas and Susiams etc. The dishes vanished in minutes there by leaving most of our members hunting for more of those delicacies. The Programme was well coordinated by Mrs. Parveen Mathew & Mrs. Mythili Sundaram. The function was very well appreciated by all our members & their families.

## Summer Coaching Camp

It is true, the letter for the summer coaching said that “Come Summer, the little tots fly with joy. For them ‘holidays are jolly days’” as per the words of our member Mr.Rajesh it come to reality as many childrens participated in the summer coaching camps.

## Role of Doctors in Health of Society

Health is a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity. Here we can talk about the health of the individual, health of the society and health of the nation. From the definition of health one can understand that as a health care provider, the role of the doctor is not limited to treating illness.

However in real life, for too long hospital doctors have been regarded as fulfilling only a specialist role in service and education, yet hospital consultants often have wide access to patients and their families and friends. Junior hospital doctors also have great opportunities to advise on lifestyle, diet, smoking, and so on-which in the long run could prove more valuable than the drugs that they write up for patients at discharge.

This scenario should change, because prevention is better than cure. Let us talk about common health problems and have some insight about the implications. As much as we would like to be we are not the custodians of health any more. We can work with the society, to improve their health status.

Diabetes is a common disease, and India will have the largest number of diabetic people by 2020. Diabetes is a metabolic disorder and once you get it, it's going to stay with you. One of the common stories I hear is the person is aware that he has diabetes, but not on any medication or diet control now! He or she strongly believes that once the blood sugar level reaches the optimum level they are cured and need not take anymore medicines.

Some diseases are curable, while some others are controllable and patients should be aware of this fact.
